

2020 Zone 4 Championship iShoot

An Update from
Steve Johnstone

Zone 4 Vice President

ZONE 4 SKEET CHAMPIONSHIP

Hello Zone 4 Shooters,
I hope this newsletter finds you all well and safe. These are certainly some crazy times we are currently living in, and with many states working through the phases to reopen, the spike in COVID 19 cases can be unnerving. I am reaching out today because I am concerned with the low registration numbers for our Zone 4 Championships scheduled

for July 31st through August 2nd.

Many shoots are getting back on schedules, and I believe we can safely conduct this event by employing common sense practices and observing CDC recommended guidelines. I have been shooting with my normal squad who are all staying pretty much isolated. We show up, shoot our targets, and then head back to the RV. It is unfortunate, but the social aspects of our game will just have to be on hold for a little while longer. As long as we are all careful and considerate of others, we should be able to conduct a safe program. Saturday dinners will have to wait, but I think we can all get past that.

We are now a little over five weeks away from our Zone Championship, and currently only have 90 people registered across our zone. **If we can't get significantly better participation and registration numbers by 7 July, the Directors will have to consider cancelling this shoot.** I really hate to have that conversation.

If you are considering going to our Zone, please go online and register, so we can get an accurate assessment on participation. You can register here: <http://zone4.org/isreg/>

Thank you and stay well!
Steve
